

The Scientific Method Song

By Mr. Phillips
copyright 2002

**There's a problem, and you're trying to solve it
And you look into the science book to see
If there's any answer out there that could help you
But it's just not to be.**

**Now you need to use the scientific method
You should research and then come up with a hunch
Then experiment and analyze your data
Make a conclusion and you're gonna learn a bunch**

**You'll learn a bunch
You'll learn a bunch
Because the scientific method
solves your hunch!**
